Pre-K - 2ND GRADE COLLECTIONS

First Step Nonfiction – Map It Out

In this six-book set, beginning readers will learn not only how to map out their world, but also their place in relation to their home, neighborhood, state, country and continent.

Series: 6 books, \$101.70, eBooks available

iMath Readers

Ten books teach early math concepts using real life situations and open-ended questions. This best, new leveled math skills series is aligned to the CCSS and it strengthens critical thinking skills.

Series: 10 books, \$159.50

paperback and teacher's notes available

“Diary of a ...“

Each book in this set takes a fun look at a week in the life of people in different careers. This a great series for introducing sequencing to early readers, and each book ends with instructions to learners on how to start their own diaries! (example titles: firefighter, ballerina, farmer)

Series: 6 books, \$119.94

Nature Walk

Children and educators alike will love the captivating photography combined with the narrative approach to non-fiction concepts in this early nature series! Text features abound in this lower than 1.0 AR level series!

Series: 6 books, \$107.70

Language on the Loose

Help young writers capture Common Core writing objectives with this four-book series that teaches grammar and punctuation in a zany way!

Series: 4 books, \$81.96

Displaying Information

Four larger books that beautifully describe how we can share information through diagrams, graphs, maps and timelines! Excellent resource to support Common Core!

Series: 4 books, \$79.96

3RD - 5TH GRADE COLLECTIONS

Cool USA Cooking

Older elementary students gain regional understanding of the US along with wonderful recipes as they cook their way across our nation! Includes step-by-step instructions and how-to photos.

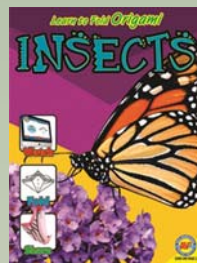

Series: 6 books, \$119.70 , eBooks available

UP2U Adventures

An easier 3rd grade reading level, choose-your-path fiction series which leads the readers through a character's story and offers three decision-making choices at the end! This is an excellent series for reluctant readers!

Series: 6 books, \$113.70, eBooks available

Learn to Fold Origami

Learn the Japanese art of paper folding through these media-enhanced books that take the reader step-by-step through instructional videos, as well as step-by-step directions from the pages! The demand for origami books has never been higher and students will love seeing and reading about making origami animals!

Series: 6 books, \$113.94

No Way!

Readers learn all sorts of unusual things about wacky topics from around the world. This high-interest series will have children excitedly telling all of their friends and family about the crazy jobs, odd medical cures, strange foods, weird sports, strange vehicles and odd buildings we have never heard of!

Series: 6 books, \$119.70, eBooks available

Fun Fact File: U.S. History!

We learn that George Washington was our first president, but do we know who was the first president to have a telephone installed in the White House? This series contains interesting tidbits that you don't normally study, but enhances your overall knowledge of US History. Fact-filled, fascinating six-book set!

Series: 6 books, \$113.70, eBooks available

iMath Leveled Readers

A cross-curricular approach to learning math concepts with three ideas to teach each concept! We couldn't resist these for grades 3 – 5 as well; especially with the great connections to Language Arts, History and STEM.

Series: 10 books, \$169.50

teacher's notes available, paperback available

Writing Stories

6 genres of writing are introduced from adventure to scary stories to illustrate the writing process. A themed story running throughout each book along with writing prompts offers a clear and fun approach to the writing process!

Series: 6 books, \$119.94, paperback available

6TH - 8TH GRADE COLLECTIONS

ShockZone – Games and Gamers

Middle Schoolers love video games, and in this six-book series, they are allowed to explore everything from jobs, to competitions in gaming, and how video games are developed!

Series: 6 books, \$119.70, eBooks available

Solving Mysteries with Science

Dangerous History

This high-interest series for reluctant readers explores history through wicked storms, deadly plagues, and eras we might not want to return to! Stories of bravery, hardship and survival come to life in the pages of these eye-catching books!

Series: 4 books, \$81.96

Twicetold Tales

Set in a modern 21st century setting, these classic fairy tales, retold in 128 pages, will captivate readers and support several Common Core Strands! Imagine comparing and contrasting them with the traditional literature and discussing in class the narrator's point of view, as events are described in fractured tales of Snow White, Sleeping Beauty, Jack and the Beanstalk and Little Red Riding Hood!

Series: 4 books, \$71.96

9TH - 12TH GRADE COLLECTIONS

Days of Decision

How have world leaders in history made important decisions that changed the course of history? What advice and support did they receive and how did their decisions have an effect on their legacies? A fascinating look at history from the perspectives of important people like Churchill, Gandhi, Hitler, Mandela, Kennedy and even George W. Bush and Tony Blair as they came together to deal with Iraq!

Series: 6 books, \$157.50

Common Core Social Studies and Science High School Collection

Four exceptional single titles especially selected to round out any High School collection, these books meet CCSS for craft and structure, integration of knowledge and ideas, and research to build and present knowledge. Topics include human medical experimentation, the assassination of Mohandas Gandhi, the earliest theories about the universe, and the history of American shopping.

Series: 4 books, \$99.80, eBooks available

Turbocharged

How do we capture young men's attention best, but to combine high-speed adventure and six amped up cars! These six high interest/lower reading level books follow one driver and one awesome ride through a series of blood-pumping, action sequences while also teaching how to overcome obstacles and do the right thing!

Series: 6 books, \$125.69, eBooks available
